

**REACH: Supplier's Questionnaire Stage 1**

Dear Sir,

You may know that a new European regulation “REACH” covering Health and Environmental dangers will come into force on June 1 2007 (see memo attached). REACH requires close collaboration between Manufacturer or Importer and Downstream Users. This questionnaire is the first step in setting up liaison with our suppliers. Since REACH is a substance<sup>1</sup> based regulation, we are writing to ask if you could provide us with answers to the following questions:

Q1) Is your company aware of REACH? YES/NO

Q2) According to our data we are buying the following “substances” (on their own or in “preparations”) from your company. Could you confirm this in the following table?

Substances	Your Trade name	YES	NO	DO NOT KNOW	Comments
W*	Black 1*				
W	Green 1				
Mo	Yellow 1				
Fe	Yellow 1				
Fe	Green 1				

\* Examples

**Table 1:** Substances checklist.

Q3) Who is your contact person for future correspondence about REACH? (please give title, email, telephone)

---

<sup>1</sup> Substance: chemical element and its compounds in the natural state or obtained by any manufacturing process (Fe, WC, Cu<sub>2</sub>O, “Stearic Acid” etc...) Preparation: Mixture of two or more substances. In REACH Alloys are treated as preparations.
