Rod Guide

Company: PMG Polmetasa, S.A.U.

Information: Piston rod guide subassembly, which includes the friction bushing, also inserted in house during a secondary process step. The PM component features molded orifices, perpendicular to the direction of the compaction, by the interaction of tangent tooling elements.

Material: Fe+ 0,5%C +2% Cu
Density: 6,3-6,5 gr/cc
Hardness: > HRB 70
