Valve

Company: PMG Polmetasa, S.A.U.

Information: Base or bottom valve for twin-tube shock absorber applications. Tight flatness and relative height tolerances plus a multilevel geometry are the main challenges.

Material: Fe + 0.3% C + 2% Cu
Density: 6.3-6.5 gr/cc
Hardness: > HRB 70

Material: Fe + 0.5% C + 2% Cu
Density: 6.3-6.5 gr/cc
Hardness: > HRB 70
